

Number row finger chart

Which finger types each number, and which Shift its symbol needs. The outlined keys are the home row.

To 6 from J, solid: 2.66 key widths. From F, dashed: 2.36. Any other digit: 2.14 or less.

- left pinky
- left ring
- left middle
- left index
- right index
- right middle
- right ring
- right pinky

Key	Finger	Shifted	Hold
1	Left pinky	!	Right Shift
2	Left ring	@	Right Shift
3	Left middle	#	Right Shift
4	Left index	\$	Right Shift
5	Left index	%	Right Shift
6	Right index	^	Left Shift
7	Right index	&	Left Shift
8	Right middle	*	Left Shift
9	Right ring	(	Left Shift
0	Right pinky	)	Left Shift
-	Right pinky	-	Left Shift
=	Right pinky	+	Left Shift

Four things to remember

- Nine of the ten digits sit up and to the left of the finger that types them. For six of your eight fingers, reaching straight up hits the next digit along.
- Go through the top-row letter: D, E, then 3. K, I, then 8.
- Hold the Shift on the opposite hand: right Shift for ! to %, left Shift for ^ to +.
- The 6 has two schools: right index (2.66 key widths from J) or left index (2.36 from F). Pick one and keep it.
